E. & C. Wood, 299 Pearl "
J. M. Young & Co., 34 Murray Street.
Chas. Zinn & Co., 406 Broadway.

The New York Merchants, Manufacturers and Importers Co-operative Union comprises many of the first merchants, manufacturers and importers of the City of New York, whose commercial and financial standing is beyond reproach. Their long and extensive experience in the commercial world enables them to handle and produce goods at a much lower rate than they can be had through any other channel. This fact is well established among those with whom we have had the pleasure of doing business since we opened our Show Rooms to the Trade on the 1st day of April, 1868.

The Union has adopted an entirely new and improved plan of doing business which gives great advantages to the buyer.

The new system has given entire satisfaction and has proved a wonderful success. It is called the "One Price, or Twelve Dollar System."

The Union has but one price for goods, viz: twelve dollars per dozen. No goods are sold for less or more than that price.

This plan of doing business was adopted by the Union for various reasons.

1st. The class of goods that the Union deal in are of a light and fancy character. This class of goods has always paid the wholesale dealer from one to four hundred per cent. profit, and the retail dealer in such goods always doubles his money.

2d. The Union deals in light and fancy goods exclusively so as to be able to offer articles for one dollar each or twelve dollars per dozen that have always been sold for $2, $3, $4 and $5 each, or for $24 to $60 per dozen.

3d. The Union manufacture a great many goods, and those they do not manufacture themselves they get direct from the manufacturers in Europe; hence they are able to furnish goods, saving for the purchaser the enormous profit made by the wholesale dealer and jobber.

4th. This system gives to parties with small capital an opportunity to select an assorted stock of goods without being compelled to buy grosses or packages of the same line of goods.

5th. Dry goods dealers, druggists, grocers, and many others, by this new system, will be able to keep a general assortment of fancy goods without investing a large sum of money. If they were compelled to buy dozens, grosses or packages of each style of goods, it would require a large capital. Some have not sufficient room, others not capital enough, while others are not willing to invest so large a sum. The UNION by adopting the one price, or twelve dollar system, are able to supply this class of trade that heretofore has been excluded, as well as those who buy by the dozen, gross or package.

The large capital of the UNION, their long experience in business, and the perfection of the organization, enables them to produce goods for 50 per cent. less than other parties, thus enabling the UNION to put goods in the market for about one-half what they have usually been sold for. We do not pretend to sell goods for less than cost, although we sell many articles for $12 per dozen that cost that to manufacture or import. Still we have a great many goods that cost less. Parties selecting or ordering goods always want an assortment, so on the whole we make a small profit.

We advise parties ordering goods to have them shipped by express, as the express companies call for and deliver goods free of charge, saving the expense of cartage, thus making the expense of transportation less than by freight. You get your goods quicker and safer by express ; they are not as likely to get broken or bruised as they are by freight. We have found it to be decidedly the best and cheapest way to ship light and fancy goods.

The UNION sell their goods for net cash. Parties ordering goods must send draft or certified check for the amount of their order, or if more convenient they can

send a post office money order or enclose the amount in a registered letter, or if desired, we will send the goods C. O. D. Many of our customers have their goods sent in that way. No orders will be filled that call for less than $12 worth of goods.

Parties ordering only a single dozen have the privilege of selecting twelve different articles from our list of goods if preferred.

By refering to our list you will notice that every article is numbered different in order to prevent any mistakes in ordering goods or in filling the orders.

All orders will be promptly filled, and the goods packed with great care and shipped according to instructions.

Salesrooms of the NEW YORK MERCHANTS, MANUFACTURERS AND IMPORTERS CO-OPERATIVE UNION, No. 667 Broadway, New York.
